

CALLING ALL ZEGG-FORUM PRACTITIONERS

ZEGG-Forum Deep Immersion Experience

A Journey to a Better Understanding of the
Mindframe and Worldview
that Support and Sustain *ZEGG-Forum* work

**With Ina Meyer-Stoll and Achim Ecker from
ZEGG Community**

Invitation to deepen your experience of Forum advanced Training

This training is for people with considerable experience in ZEGG-Forum

Forum is not just a tool for transparent communication in a group but a transformative process. In this workshop we will create a deeper awareness for the worldview behind Forum, which is essential to embody as a Forum facilitator.

How do our thoughts and attitudes shape what it means to trust?
Seeing others, daring to be seen; how does the process create love?

FRIDAY, September 1st, 7:30 PM to SUNDAY, September 3rd, 3 PM
in **Staten Island, New York**
with the option to add another day - Monday 4th

In this experiential training we will create a deeper perception of who we really are as human beings. It supports us to become more mature and alive adults.

Together we practice deep listening and sharing in a healing and powerful setting of a group.

We connect with our inner centre and with the centre of others; from there we can see with new eyes.

We will gain a profound understanding of the positive powers of our feelings and learn to see them as our allies to create connection.

ZEGG-Forum was developed as a creative communication and feedback tool to create transparency and trust in a group. It is a personal process in a social context and a powerful tool for

transformation. It opens an empathic social space that supports us to stay present. The aim is to reveal whatever is authentic, alive and true.

ZEGG-Forum creates trust, openness and transparency between people. A person connected with his or her own inner truth, no matter how wounded, is always beautiful and the process of seeing will create love.

It is more than a technique;

Forum is a culture-building process based on high human and ethical values

Learning to be with our feelings & emotions. We will learn to connect more deeply with our genuine feelings and distinguish past emotions from the present situation. We will experience our feelings as social powers. This work connects directly with our full potential and supports each one of us to bring it into life. We will work with the whole group in a circle, in small groups and individually.

Trainers are Ina Meyer-Stoll and Achim Ecker, long time teachers of *ZEGG-Forum* from the ZEGG-Community in Germany (www.zegg.de)
