FACILITATING FORUM

Beyond participation, toward facilitation

You may have experienced Forum before: that rare quality of presence, the courage of someone stepping into the center, the way a group can suddenly breathe together. Perhaps you have felt the call to help create that space for others.

This training is for those who want to go further. Not just to receive the process, but to learn to hold it. Becoming a Forum facilitator is not primarily a technical skill, it is a path of inner development. It asks you to deepen your self-knowledge, to work with group dynamics, and to cultivate a quality of presence that others can trust. This takes time, practice, and real experience in community.

THE PATH FORWARD

Transfor(u)m Facilitation Training

14 days — May-October 2027

The Netherlands – Uelenspieghel, Uffelte

After the Basic Training, the program continues with 4 parts:

- **Training 1** (*4 days, 19–23 May 2027*): Deepening community experience — learning to read the field and feel what is alive
- **Training 2** (*6 days, 22–27 June 2027*): Learning to hold Forum, practicing facilitation under supervision
- **Supervised practice period**: Facilitating in regional groups, receiving feedback, building real confidence
- **Training 3** (*6 days, 12–17 October 2027*): Integration, refinement, and networking — stepping into your role as a facilitator

What is in the mix

Across the full year, you work with Forum practice, teachings, meditation, body awareness, improvisation, and small group work, alongside individual processes and peer supervision. The learning happens not just in the training room, but in the spaces between: in how you relate, how you listen, how you show up.

Rooted in decades of lived community experience at ZEGG, the training draws on a wide range of approaches to conscious community-building. You will develop your own facilitation style while being held by a clear ethical and human framework.
